Applications

Bills Organizer & Reminder	<p>The main idea of the app is to give you tool that lets you track and manage all your bills in one place. Bills Organizer & Reminder has dashboard-style views that allow you quickly see approaching bills, and it sends payment reminders for upcoming bills before due date.</p>
Home Routines	<p>Create routine checklists, then complete them on your chosen days of the week, with reminder notifications to keep you on track, and a gold star for each completed task. Your checklists can automatically reset - start fresh each morning, week, or month (no guilt trips here!) Free online editing and syncing between your devices. Home Routines is totally customizable, easy to use, and friendly, not bossy</p>
Reebee	<p>Browse flyers, search for products and sync your shopping list with reebee.</p>
CreateAbility Inc	<p>Several apps & programs to help individuals foster independence, establish and achieve goals, monitor health and wellbeing and communicate with supports.</p>

Products

Ablelink Technologies - Smart Living Services	<p>The Smart Living Service includes the Endeavor and Visual Impact apps, along with the Smart Living Desktop software. Each solution is designed to help individuals with cognitive disabilities to experience independence at home, at work, and in the community.</p>
Ablelink Technologies - Smart Travel Service	<p>Ablelink WayFinder unlocks the world of independent travel for people with cognitive disabilities. Accessible GPS-based cues guide the traveler through bus and foot navigation, extending people into the community on their own terms. The WayFinder Ecosystem offers services for training and trip management.</p>

<p>Locator Devices for people who easily go missing</p>	<p>https://uwaterloo.ca/aging-innovation-research-program/locator-devices#GPS</p>
<p>Look, Cook and Eat</p>	<p>We are successful food editors on a mission: to teach cooking skills to people with intellectual disabilities using a digital, easy-to-follow format. Each kitchen-tested recipe uses simple ingredients and tools, resulting in great-tasting, achievable meals. Use LCE in a classroom, home, or group setting.</p>

Medical & Personal Safety

<p>Brain in Hand</p>	<p>Brain in Hand is for people who experience anxiety, find it hard to remember things, or have difficulties with executive function (for example, planning and organizing, initiating tasks, and responding to unplanned situations). These challenges may be common to many neurodivergent people, as well as those with a range of mental health support needs and some learning disabilities.</p> <p>Brain in Hand concentrates on what's important to an individual, the goals they want to achieve, and how they can use their strengths and skills to overcome challenges, manage anxiety, and deal with difficult situations</p>
<p>Shut-off Devices & Safety Outlets</p>	<p>Automatic devices to turn off the stove, with and without timers.</p>
<p>Alarm.com</p>	<p>Unlike traditional systems that only alert you in an alarm event, we let you know what's happening at your property at any time. It's easy to set your own alerts and reminders to be notified of any activity you care about, whether your system is armed or not.</p>
<p>Full Circle Telecare</p>	<p>Full Circle TeleCare offers a full suite of remote monitoring/support services and solutions to help individuals with disabilities maintain healthy and safe lives. We tailor our telecare service options to each person's unique needs and abilities. Our services are specifically designed to help individuals with disabilities gain more independence and become less reliant on in home caregivers.</p>
<p>Invisible Care</p>	<p>Invisible-Care works with all teams and support models from personal support, developmental support and rehabilitation support. We have trained staff with experience in communication, traumatic brain injury, mental health and all staff are supervised by an Occupational Therapist.</p> <p>You tell us the support your client requires and we deliver it through an Intermittent care model paired with Technology.</p> <p>Invisible-Care offers all support services as an extension of the care team. The support person behind the technology reaching out to clients come from a variety of backgrounds including Personal Support Worker, Educational Assistant, Communications Assistant and Rehabilitation Assistant.</p>
<p>Cooking Fire Prevention</p>	<p>Pioneering Technology offers an extensive lineup of cooking fire prevention solutions for a broad range of multi-family apartment buildings and other types of commercial properties.</p>
